# THE STORY THAT BEGAN WITH A SEED

Colian was founded by the Kolański family in 1990 in Piątek Wielki near Kalisz. At the beginning, a company called Ziółopex was established, which produced herbs and spices. So, it all started with a seed, which once sown and properly nurtured, yields a crop, from which we still draw today.

Today, Colian is one of the main players on the Polish market for food products, especially confectionery. It provides a complete portfolio of excellent quality products that are well-known to consumers. The secret of its success lies in the production method, which combines tradition with modernity, and guarantees inimitable taste. The company, operating from Poland, successfully competes with international food corporations. It has 5 production plants located across the country. In total, it employs over 2,500 people.

## Polish roots – global quality

**Colian products are exported to nearly 70 countries worldwide.**

They reach the farthest corners of the world, delighting the palates of consumers on all continents.

**See where you  
can find  
our products!**
